F. Income Taxes

The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards No. 109, *Accounting for Income Taxes* (SFAS No. 109). Under SFAS No. 109, deferred tax assets and liabilities are recognized for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis.

The Company is included in the consolidated Federal income tax return of the Parent and files a separate company state return. For financial statement purposes, the Company calculates its income tax provision on a separate company basis in accordance with an informal tax sharing agreement with its Parent. Deferred income taxes are provided for temporary differences between the tax basis of an asset or liability and its reported amount in the financial statements at the maximum statutory tax rate. Deferred tax assets are provided for operating losses that are available to offset future taxable income.

At December 31, 2001, the Company had a net potential deferred tax asset of approximately \$35,000, consisting primarily of net operating losses. The Company has approximately \$81,000 in Federal and Pennsylvania net operating loss carryforwards to offset future taxable income through 2022. A valuation allowance has been established because realization is considered more likely than not.

Note 2 - Regulatory Requirements

The Company is subject to the Securities and Exchange Commission's (SEC) Uniform Net Capital Rule 15c3-1 and is required to maintain minimum net capital of the greater of 6⅔% of aggregate indebtedness, as defined, or \$5,000. Further, the ratio of aggregate indebtedness to net capital is not to exceed 15 to 1. The Company is required to perform net capital and aggregate indebtedness calculations on a quarterly basis. At December 31, 2002, the Company had net capital, as defined, of \$123,180, which was \$118,180 in excess of its December 31, 2002 net capital requirement of \$5,000. In addition, the Company maintained an aggregate indebtedness ratio of .02 to 1 at December 31, 2002.

In January 2002, the Company requested and received approval from the NASD to reduce its minimum net capital requirement to \$5,000. The Company requested the reduction because it does not intend to do principal transactions, although it will continue to be authorized to conduct riskless principal transactions.
